1992 Index

A

Acceptable fire risk, 289
AFFF, 123, 124, 128, 132, 133
  MP/Newtonian, 123, 128, 132-133, 294
Ahola, Heikki, 109
ANSI/NFPA 70-1990, 71
ANSI C 64.1-1982, 74
Appreciation to Referees, 3
Aqueous Film Forming Foam (AFFF), 123-124, 128, 132-133, 294
Arrhenius equation, 230
ASET-B, 87- 91
ASTM, 286
ASTM C 192, 240
ASTM C 305, 240
ASTM Committee D-9, 347
ASTM Committee E-5, 279, 347
ASTM Committee E-30, 286
ASTM E119, 5, 6, 9, 21- 22, 27
ASTM E 1355, 279
ASTM E 1472, 279
ASTM E-1385, 287
ASTM E-1387, 287
ASTM E-1388, 287
ASTM E-1389, 287
ASTM E-1412, 287
ASTM E-1413, 287
Automatic sprinklers, 225

B

Babrauskas, Vytenis, 163
Beck, Kenneth, 134
Bigglestone Award, Harry C., 98
Birk, David, 87
Bjorkman, Jouni, 109
Black hole, 195-196, 199, 206, 213
BLEVE, 257-258
Board and care homes, 136-137, 139-141, 148, 159, 160
Boiling liquid expanding vapor explosion, 257-258
Book Reviews, 87, 181, 373, 376
Bright, Richard, 106
Brush fire, 196
Building fires, 71
Building codes, 274, 275, 276
Bukowski, Richard, 106
Burn patterns, 195

C

Cable products
  corrosion, 346-347, 360-364
  flame retardancy, 346, 347
  flame spread, 346
  halogen content, 348
  heat release, 352, 354, 357, 363
  property balance, 349
  smoke release, 359, 364
Cambon, A., 123
Carbon monoxide poisoning, 369
Carter, D. A., 168
Chemical heat release rate, 218
Combustion products, 49, 168-172
Computer analysis, 278
Computer modeling, 277
Concrete, 240
  performance at elevated temperatures, 240, 249
  tests, 240, 24
  spalling, 205
  strength, 241-246
Conference Reports, 280-284
Cooper, Leonard, 251
Crazed glass, 198, 205, 210-213
Current Research, 174, 177, 277, 279
Custer, Richard, 181
Cyanide antidotes/poisoning, 369, 371

D

DeHaan, John, 181
Dehydrating action, 128
Dickinson, Paul R., 345
Dispersion, 168, 169, 170
Doors,
  hollow wood, 252, 253
  solid core wood, 252, 253
  hollow metal, 252, 253
  insulated metal, 252, 253
Droste, Bernhard, 257

E

Eaton, Thomas E., 70
Edison three wire service, 72
Editorial Review Board, 2
Elderly, 134-136, 140, 142-143, 152
  fire deaths among, 134-135
  higher risks of, 136
  independent living, 152-153, 159
  special needs of, 136
Electric cables, 215, 216, 219, 223-224, 228-232, 238
  behavior, 229
  in buildings, 228
  fire protection guidelines, 224, 226
  ignition, 219
Electric fire dilemma, 75
Electric power quality, 83, 85
Electric service fire, 71, 85
  damage, 74, 76, 85
Electric utility, 81
Environmental protection: A Fire Safety Objective, 194
Extinguishing foam, 13, 123-127, 291, 293, 294, 304-307, 312, 315-316

F

Factory Mutual Research Corporation, 215, 216, 274,
"Feeling a door," 251-256
Fire behavior, 5, 6, 31, 32, 213,
Fire causation, 77, 79
  in electrical service,76-77, 79, 85
Fire codes, 274-276
Fire curve, 58, 59, 65, 67
  model, 58-59
Fire damage, 74
  to electric service, 74, 85
Fire damaged glass/metal, 212
Fire death and injury, 134-135
Fire endurance, 48
Fire exposure, 23, 252, 254, 256
Fire evaluation, 277
Fire fighter, 197, 320, 327, 330
  death, 317, 322-324
  health and safety, 318, 326
  medical monitoring, 327, 330
  protective clothing, 324
  rehabilitation, 320, 323
Fire fighting, 110
  chemicals, 193
  urban, 196
Fireground operations, 324
Fire hazard, 77, 85, 163, 166-167, 228, 238, 278
  analysis, 163, 165-166
  of cable products 358, 365
  in electrical services, 78, 85
Fire in electrical service, 82, 85
Fire in ship accomodation quarters, 31
Fire intensity, 41-42, 47
Fire measurements, 163
Fire modeling, 87, 279
Fire origin determination, 195
Fire observation, 200-204
Fire plume, 170-171
Fire products, 215
Fire propagation, 215-216, 218, 220
  behavior, 215-216, 223
  rate, 220
  index, 222, 223
Fire properties of materials, 277
Fire protection, 97, 98, 193, 224-225, 257, 258, 273, 274
  LPG tanks, 257, 264
Fire rated assemblies, 5, 6
Fire resistance, 5, 6, 49, 198
Fire retardancy of cables, 346, 357
Fire risk, 289
Fire risk assessment, 278
Fire safety, 134, 137-155, 158-159, 194, 270, 273-276
Fire safety science, 110-111
Fire safety objective, 193
Fire, shipboard, 291
Fire size, 216
Fire tests, 31, 37, 47-51, 111, 259, 261-264, 267, 277
Fire toxicology, 369
Fire victim death, 369
FIREFLY, 169
